RE: Class 1 Permit Modification, Boeing – St. Louis
EPA ID#: MOD000818963

Dear Mr. Kury:

The Missouri Department of Natural Resources is in receipt of your letter dated September 17, 2001. This letter requests modifications to the hazardous waste storage permit for the St. Louis facility. One modification would change the Part A application to name the McDonnell Douglas Corporation, a wholly-owned subsidiary of Boeing, as both owner and operator. The other modification makes changes to Section IX, Final Remedy Approval. The department approves these modifications which are in accordance with 10 CSR 25-7.264(1) and (2). The closure of the storage areas will render the permit provisions regarding container storage inapplicable. These provisions will be removed when the permit itself is next revised.

In accordance with 40 CFR 270.42(a)ii and 124.10(c)ix, The Boeing Company shall notify all persons on the facility mailing list and the appropriate units of state and local government within 90 days of receipt of this letter.
